

## **NANDA International Fellowship Application Packet**

NANDA International welcomed its first class of Fellows during the 2012 40<sup>th</sup> Anniversary Conference. The Fellows represent nursing leaders with expertise in standardized nursing language within the areas of education, administration, practice, informatics and research. They include: association/organization executives; chancellors, deans and university professors; clinical nurse specialists and nurse practitioners; nurse consultants; journal/book editors and authors; researchers and entrepreneurs.

NANDA-I Fellowship recognizes the accomplishments of these individuals within the standardized nursing language arena, and the nursing profession as a whole. Fellows of NANDA-I (FNI) have been members of the Association for a minimum of ten consecutive years, and continue to contribute their time and energies to the organization, and engage with other health care leaders outside of the organization to continue to move the work of the organization forward to provide evidence-based clinical decision support to nurses worldwide.

The community of Fellows within NANDA-I provides expertise in multiple areas, including those listed above. Fellows may provide opportunities for mentorship, partnership in projects in multiple areas (e.g., research/clinical/administrative/educational/informatics projects), and may serve as media sources and consultants.
